Dear Marvin:

Thank you so much for all your help in making the launch of *Chefs Move! to Schools* such a success. The day was everything we had hoped it would be, and it wouldn't have been the same without you.

Childhood obesity is a challenge that we must face together, and I am inspired by the work being done to help realize the promise of a brighter, healthier tomorrow for our children. Your involvement is essential in solving the childhood obesity epidemic. Helping kids learn how to make healthy choices is important not only now, but for the rest of their lives.

Thank you again, Marvin. I am thrilled to have your help in this effort. I look forward to working together with you, and I wish you all the best.

Sincerely,

Michelle Obama
